Register Here

At Heart to Heart we believe that we grow as a community by sharing our stories and being present with one another. As we expand the reach of Heart to Heart's life-serving education to include family members, we extend our welcome to parents, foster and adoptive parents, grandparents, adult siblings, aunts and uncles.

This informal listening forum will be facilitated by Steve Tumolo, Executive Director and will include a question and answer period for each speaker. Chris and Jeannie will both share how they brought Nonviolent Communication into their relationships with their children and how this contributed to positive change.
